With coal at from $18 to $25 a ton the coal barons are not losing any sleep over the situation.

If President Baer, who talked so strenuously to President Roosevelt Friday, were commander-in-chief of the U. S. army, perhaps he would put the soldiers to mining coal.

Coal and other fuel is so scarce in the city of Rochester, N. Y., that in some parts of the city the people are pulling up and burning the wooden sidewalks.

The coal barons, who met in conference with the President Tuesday did not exactly say it, but this is what they said in substance: "The public be d—d,' and you too, Mr. President. We know our business and you attend to yours."

A few days ago we remarked that in Chicago they hadn't yet got to wearing coal for jewelry. We were just a little ahead of time. A jewelry man is now cutting it up into little squares, and is selling it for just a little more than the coal dealers are demanding.

That Russian sect up in Manitoba who will not eat meat, eggs, cheese, or animal products of any kind, nor work horses because they have to use harness made of leather, are piling up bother for themselves. If they follow this thing up they will have to go barefooted, hibernate and suck their paws bear fashion.

Whatever the motive may have been, whether politics figured in it or not, the President deserves credit for his efforts to end the strike. He spoke for the people. When the coal barons turned a deaf ear to his appeal and arrogantly said "no," they showed how selfish and domineering they are. It is now up to the sovereign State of Pennsylvania to bring these insolent barons to terms.

CITY SCHOOLS OPEN MONDAY.

Indications Point to Large Attendance. Many Improvements During the Summer Vacation.

More than two thousand children of school age in Wilmington will put aside play and vacation to-morrow and return to books. With most of them it will be a welcome translation; with many, however, it is a step that will be taken reluctantly, for who does not know the antipathy of the average boy for knotty arithmetical problems or tantalizing rules in grammer.

This year the public schools of the city will open under the most favorable auspices. A stronger corps of teachers was never employed and the superintendent and principals have their year's work admirably laid out. The classes, some of them, are also organized for the year's work by the teachers, and students and instructors alike will begin to-morrow full of enthusiasm.

Many improvements have been made during the Summer, notably the annex to Union School and the addition to Hemenway, and all of it counts in the smooth working of the vast school machinery of Wilmington. The Union School building is now one of the finest in the South. Seventeen rooms are under the roof and the large number of pupils that may be comfortably accommodated is marvellous.

Miss Nellie Cook, supervising principal of the public school system, will again have Union School under her special care and will exercise her usual diligence in the management of its affairs. Prof. R. D. W. Connor has arrived and will be in charge as principal of the High School, and Mrs. McLeod will remain in charge of Hemenway.

The indications are decidedly in favor of a much larger attendance upon the schools than ever before.

LOCAL DOTS.

— For other local see fourth page.

— Church notices on second page.

— Wilmington Presbytery will convene Wednesday at Mount William's church, near Bannerman's Bridge, in Pender county.

— Who Wrote the Bible?" will be the first of a series of interesting addresses by Dr. Blackwell, beginning at the Y. M. C. A. this afternoon at 5 o'clock. Good music. All men invited.

— Rev. R. F. Bumpass, formerly the beloved presiding elder of this District, will preach at Grace M. E. church to-night. There will be no service at Grace church this morning.

— Fayetteville wants a tobacco warehouse. The *Observer* says some Cumberland tobacco was recently sold at Lumberton as high as 50 cents a pound. Another lot of 700 pounds sold at $126.86.

— Thos. J. Lewis, 24 years of age, a white laborer at Fort Caswell, was brought up to the city yesterday and sent out to the James Walker Memorial Hospital for treatment of an injury received a few days ago.

— Mr. Henry Newman has been appointed travelling press agent for the Academy of Music. His duties will be to keep a watchful eye, while on the road, on all attractions heading this way and report as to their merits.

— Friends of Mr. John McLaurin, New Hanover's efficient Deputy Register of Deeds, will regret to know that he suffered a very painful sprain of the ankle while superintending some work yesterday, about a new residence which he recently had built.

— Mr. Michael H. Kelly announces that he has assumed control of the "Opera House Bar" at Second and Princess streets, and is prepared to serve the public in first class manner. In connection with the saloon Mr. Kelly conducts a first-class lunch department, which he commends to the public.

Cumberland County Republicans.

The Republican county convention of Cumberland was in session hardly an hour yesterday afternoon. There were about a hundred delegates (all white) a hundred Democratic spectators and twenty negroes present. The convention was a cut and dried affair by a caucus the night before and it was agreed to leave the county ticket blank. S. H. Cotton, of Hope Mills, was nominated for the Senate; C. C. McLellan, of Black River, and D. A. McNeill, of Rockfish, for the House. Slocomb's candidature for Congress and R. S. White for solicitor, were endorsed.

INTO ITS NEW HOME.

The Chamber of Commerce Will Change Headquarters To-morrow Afternoon.

FINEST IN THE STATE.

All Departments Have Been Given a Place and the Whole Building Transformed into Model of Neatness and Convenience—Other Notes.

Monday afternoon will find the Chamber of Commerce at home in its handsome new headquarters at No. 14 Princess street. The moving from the present building at northwest corner of Water and Princess will begin at 6:30 o'clock Monday morning, and in a few hours it is expected that the transfer will have been made.

Yesterday the carpenters, painters and linemen were putting the finishing touches upon the new place, and a reporter is under obligations to Mr. L. B. Rogers for being shown over the new building. It is fixed up "to the queen's taste," and will afford the Chamber the most handome rooms of any similar organization in the State.

To the right as you enter the building is the telegraph station by which the enlarged Chamber will receive its market quotations. These are more complete now than ever before, and it is learned that the leading stocks may be added later to the daily quotations. Seven instruments have been installed by the Western Union for this service.

On the left as you enter is an apartment, with a neat rail enclosing it, where a desk and all writing material will be furnished visitors and all members who desire to conduct their correspondence from the Exchange. Also on the left a telephone booth has been made for the public use of members. The booth is furnished with a glass door, and absolute privacy to conversation over the 'phone is ensured. There will also be desk 'phones in the secretary's office and at the telegraph station.

With the exception of these apartments which take up a minimum amount of room, the remainder of the front half of the large building will be used as a lobby and reading room for members. The latest newspapers, financial and otherwise, will be kept on file with books which belong to the Chamber library.

Handsome fixtures divide the lobby and reading room from the Exchange proper, which occupies the rear end of the building. On the left side the black boards containing all the market quotations will be displayed and on the right will be an elevation and table at which the president will preside over all general meetings of the body. The southwest corner of the room has been converted into an office for the secretary with ample room and shelves for books and records under a hand some counter which encircles the apartment. In the southeast corner, a handsome toilet apartment has been arranged with all modern conveniences.

At the rear is a porch over which an awning will be stretched, providing a delightful retreat in Summer for those of the members who are devotees of chess, checkers and the like.

The interior of the building has been handsomely rennovated. The walls are nicely kalsomined and frescoed in Colonial style by Hatch, the painter. A neat moulding has been extended around the walls for pictures, a number of which are already in the hands of the Chamber and others are being added. Bronzed gas fixtures and electric appliances are already in for the lighting. The ceiling is finished in white and the floors are painted an appropriate color.

An attractive sign of six-inch white enamel letters will be placed on each of the two large plate glass windows in front.

The Chamber is indebted to an enterprising committee consisting of Mr. L. B. Rogers (chairman), Mr. C. H. Robinson and Mr. M. W. Jacobi, for the pretty home into which it will move to-morrow. Mr. Rogers has been especially diligent in his efforts and has personally supervised the work in detail.

Sam Bear, Sr., & Sons.

Official announcement is made in another column of the formation of a copartnership between Messrs. Samuel Bear, Sr., and his sons, Messrs. Isaac J. Bear, Sigmond Bear and Emanuel I. Bear, under the firm name of Sam Bear, Sr., & Sons, which succeeds to the business heretofore conducted under the name of Sam Bear, Sr. The young Messrs. Bear have long been identified with this well known and established house in one capacity and another and that they are now admitted to partnership is a compliment to their faithful and painstaking service in the past. The new firm has the STAR'S very best wishes for continued prosperity.

SUPERIOR COURT THIS WEEK.

Convenes To-morrow Afternoon, Judge H. R. Bryan Presiding—Important Railway Damage Suits--Jurors.

The October term of New Hanover Superior Court, Judge Henry R. Bryan presiding, will convene to-morrow afternoon at 2:30 o'clock and remain in session for two weeks. The calendar of cases for the term was printed in these columns a few days ago. Court will not be convened until the afternoon, in order that Judge Bryan may remain at home Sunday and get here on the Newbern train to morrow.

Perhaps the most important case on the docket is set for the first day—B. F. Penny against the W., C. & A. Railroad Company, in which the plaintiff sues for large damages for being shot one Sunday in the Fall of 1898 by an unruly negro who was ejected from a train of the defendant company at Phœnix, Brunswick county. Messrs. Bellamy & Bellamy, Herbert McClammy and A. J. Marshall appear for Mr. Penny, while the interest of the railroad will be looked after by Messrs. Rountree & Carr, Davis & Davis and Bellamy & Perchau. The case promises to bring on a sharp legal battle, participated in by some of the best lawyers in the State.

The next most important case, perhaps, is another suit for damages, brought by J. L. Love, of Union county, against the Carolina Central Railroad Company. The plaintiff was a conductor for the company at one time and was injured by being thrown against a red-hot stove in his caboose by the breaking of a coupling of his train near Clarkton, N. C., a year or two ago. Messrs. Herbert McClammy, William J. Bellamy and Bellamy & Bellamy appear for Mr. Love, and Messrs. Meares & Ruark for the defendant railroad. The case is set for Wednesday of the first week.

The following jurors have been summoned for the term:

First Week—Carl B. Rehder, H. B. Taylor, J. W. Solomon, John Dyer, John D. Doscher, Jr., A. L. Price, J. W. Scott, Jr., J. G. King, Sr., L. B. Bissenger, Sam. Bear, Jr., T. M. Earnhardt, Geo. S. LeGrande, W. H. M. Koch, J. M. Bryan, Benj. A. Merritt, Eduard Ahrens, W. H. Stokeley, Geo. Irving.

Second Week—T. B. Kingsbury, Louis Gordon, E. P. Owens, S. A. Schloss, DeWitt C. Love, George W. Rogers, John H. Strauss, S. P. Cowan, George T. Bland, E. F. Johnson, Wm. H. Brown, W. L. Harlowe, T. W. Wood, H. W. Mason, Matt. J. Heyer, A. B. Brown, B. M. Liheu, Branch W. Jones.

MR. REILLY BADLY SCALDED.

Testing a Flue Cleaner at Gas Works, Rubber Hose Bursted.

Mr. John W. Reilly, of the Consolidated Railways, Light and Power Co., was badly scalded yesterday afternoon about 5 o'clock while engaged in testing a flue cleaner at the gas works on Surry street. Mr. Reilly had hold of a rubber hose through which steam and hot water was being forced for the purpose of cleaning a flue, when suddenly the hose burst and his entire right arm from his shoulder to the wrist was badly burned.

Mr. Reilly was sent to his home in a carriage and Dr. L. H. Love is attending him. He was doing very well at last accounts.

PEANUT TRUST PROVED A FAILURE.

Options Expired October 1st and Nothing Was Done—Another Collapse.

A dispatch from Suffolk, Va., dated Oct. 1st, says that the proposed peanut combination, which meant to control the chief output of Virginia and North Carolina has collapsed.

Norfolk promoters interested New York financiers in the movement, and options were taken on a dozen of the largest plants. Expert accountants were hired to inspect the books.

Oct. 1st, nearly all the options expired. The Virginia Protective Peanut Association also went out of existence.

Funeral of Mr. Bridgers.

The funeral services over the remains of the late Preston Louis Bridgers will take place at 9 o'clock this morning from St. James' Church and will be conducted by Rt. Rev. Bishop A. A. Watson, Rev. Mr. Horsfield, and Dr. Cermichael. Mrs. M. E. Bridgers, mother of the deceased, and his sister, Miss Lucy Bridgers, arrived last evening from New York. Also other relatives from a distance are here to attend the funeral. Mr. D. T. McKelthan, of Lumber, S. C., Mr. Bridgers' partner, arrived Friday.

Glenn and Watson Speaking.

Capt. Robert B. Glenn, candidate for the U. S. Senate, who will address the citizens of New Hanover in the Court House Wednesday night week, spent yesterday in the city. He returned to his home in Winston last evening. Hon. Cyrus B. Watson, also a candidate for the Senate, will speak in the Court House Wednesday night of this week. Both will no doubt be heard by large audiences, for both are popular in Wilmington.

ACADEMY OF MUSIC.

Notable Galaxy of Attractions Billed for Wilmington's Theatre This Week.

MISS SHAY AND MR. GILMORE.

"Reaping the Harvest" Monday Evening; "Carmen" Wednesday; "Tyranny of Tears" Thursday and Minstrels Saturday Matinee-Night.

"Reaping the Harvest" will be at the Academy to-morrow night. The press praises the play and players highly and many personal endorsements also go to attest its merit. Mr. E. L. Williamson, of the Atlanta *Constitution's* staff, who is now in the city, says the play is an exceptionally strong one and is bound to please.

The story of the piece is a strong moral one. It pictures the echo of what is too often thought good times. It shows the weakness and the strength of human nature. In short, it is a story of every day life teeming with the richest kind of comedy, a sufficiency of pathos and heart interest, constructed in a masterly way. Most elaborate stage settings are used in making the production.

"Carmen" Wednesday night--The demand for seats for the appearance of the Gordon-Shay Grand Opera Company at the Academy Wednesday night in a magnificent production of Bizett's beautiful opera, "Carmen," has already been exceedingly large. To meet this demand the sale will commence to-morrow morning at 7 o'clock, a day earlier than usual, at the Academy's down town box office at Plummer's.

The production will be a sumptuous one, being made with a car load of handsome scenery. The cast is composed of only high salaried artists, augmented by a chorus of nearly fifty. The company also carries its own orchestra, which will be combined with that of the Academy.

"The Tyranny of Tears."—Another brilliant event this week will be the appearance Thursday night at the Academy of Mr. Paul Gilmore in John Drew's popular success, "The Tyranny of Tears."

The play has been aptly described as a comedy of temperament, and was originally presented at the Criterion Theatre, by Sir Charles Wyndham. It may be safely said that during the two seasons this play was presented, Sir Charles Wyndham did much to forward his claim to the recognition recently bestowed upon him in the form of knighthood.

For the benefit of those who have or may subscribe for seats, the advance sale will be opened at 2 o'clock Tuesday afternoon. The regular sale will commence Wednesday morning.

"Who, What and When Minstrels."—Of the "Who, What and When Minstrels," who will give two performances at the Academy next Saturday, matinee and night, nothing but the best of press notices have been seen. Mr. Gus Thompson, advance agent of the company, was in the city yesterday making arrangements for the coming of his splendid attraction.

DIED FROM APPENDICITIS.

Robeson County Young Man Underwent Unsuccessful Operation at Hospital.

Mr. Alex. A. Inman, son of Mr. C. A. Inman, of Ashpole, Robeson county, died at the James Walker Memorial Hospital in this city yesterday morning at 6:30 o'clock, aged 24 years. Young Mr. Inman was brought to the hospital Friday and was operated on for appendicitis the same afternoon by Dr. J. P. Brown, of Ashpole, and Dr. Jos. A. Akerman, superintendent of the hospital. The disease, however, had made too rapid headway before the young man sought surgical treatment and he died after the unsuccessful operation.

A week ago young Mr. Inman ate heartily of scuppernong grapes and swallowed some of the seed, which caused appendicitis to set in immediately, causing his death.

The remains were prepared for burial yesterday by Undertaker W. E. Yopp and returned in the afternoon to his home, accompanied by Dr. Brown. The young man is well connected and his death is greatly regretted. He was a mechanic by occupation and a young man highly esteemed in his community.

Assaulted Street Car Conductor.

James Marine and Wiley Mazingo, two white youths, were given a trial in Justice Fowler's court yesterday on charges of each having committed an assault and battery upon Conductor R. J. Armstrong, of the street railway. The conductor was assaulted at Ninth and Princess streets by the young men because he remonsrated with them about being disorderly on his car. Mazingo and Marine were fined $5 each.

Jubilee Closes To-Night.

The series of jubilee meetings at Fifth Street M. E. Church will come to a close to-day with a sermon morning and evening at the usual hours by the distinguished Bishop W. A. Wilson, of Baltimore, who arrived yesterday and is a guest of Mr. Ed. Borden. There will be good music, ample seating capacity and the public generally is cordially invited.

REGISTRATION VERY SLOW.

Less Than 150 Voters Registered in the City—The Duty Must Be Performed If You Wish to Vote.

Incredible as it may seem, there are less than a hundred and fifty voters registered in the city for the November election, notwithstanding the books have been open for three days. The apathy that exists in this respect is alarming when it is considered that a new registration is absolutely essential to voting at this election and that the books will be open for only twenty days.

The small number of people that have registered were secured largely through the special efforts of the registrars, who, except on yesterday when the law required them to be at the polling places, went around to the homes and places of business of voters and solicited them to register. Had it not been for this special effort, which will be continued to some extent, it is doubtful if seventy-five people would to-day have their names on the books.

A reporter of the STAR yesterday made a tour of most of the polling places and found all the registrars complaining of "nothing doing." They want the people to hurry up about this matter to save the rush on the last days. Most of those who have registered thus far have done so under the act permitting a permanent registration for all time, and to register in this way requires from four to five minutes. If the person to be registered enters into any lengthy explanation of his genealogy appropos the grandfather clause, even more time is required. If there are many delays until the last minute the rush is something terrible for the officers in charge to contemplate.

The books will be open next Saturday at the various polling places, already published in these columns. On other days, except Saturdays, the registrars are not required to be at the polling places, but must look up the "man with the book."

STAND PAT.

Two years ago Mark Hanna played the "full dinner pail" racket, and played it successfully, too. But he isn't talking much about the "full dinner pail" now. The high prices of meats and other food stuffs controlled by the Trusts have knocked the "full dinner pail" out for use in this campaign.

He started out some time ago with another gag, "let well enough alone" which interpreted means keep on voting the Republican ticket, just as you have been doing, voting for the high tariff, the trusts, and all that kind of thing, for they have brought prosperity to you. Things are well enough, and just keep on "letting well enough alone." A few days ago he made a speech at Akron, Ohio, in which he reiterated his old gag, "let well enough alone," and followed it up with the injunction to to "stand pat." Hanna isn't of the tariff reform, anti-trust brand of Republicans, he believes in the Dingley tariff from A to Z and that trusts are simply the logical outgrowth of our material and industrial development and progress. They are good things and instead of going back on them, apologizing for them, getting scared and promising to clip something off the former and to put some chains and balls on the latter, the Republicans ought to stand by both, "stand pat" and make no concessions.

You may differ as much from Mark Hanna as it is possible for one man to differ from another but you can't help admiring his pluck and his willingness to stand by what his party does and defend its policies. Of course he tries to humbug the people in doing this, as he did with the "full dinner pail" racket, and the "advance agent of prosperity racket," but still he stands by his party and assumes full responsibility, without showing any white feather. It is the audacity of the successful leader and humbug that looms up into proportions large enough to command admiration.

There is more or less demoralization among the Republican leaders, and consequently many of them have declared in favor of tariff revision, the repeal of tariff duties on such articles as are controlled by trusts which find shelter under the protective duties, but Mark isn't one of these for he advises Republicans to turn adeaf ear to those timid tariff reformers and trust smashers and "stand pat," put on a bold front and defend everything. From the standpoint of partisanship and pluck that is all right, but from the standpoint of statesmanship it is all wrong.

If things were well enough it would be good advice to let well enough alone, to seek no new things, to try no experiments. If the policies and the administration of those policies were all right then he might well say "stand pat" and defend them; but things are not well enough, and no one knows it better than Mark Hanna. The policies of the party he represents and speaks for and the administration of those policies are not beyond questioning, and no one knows that better than Mark Hanna. It may be well enough with Mark Hanna, with his millions, and the trusts he speaks for, and with the beneficiaries of the protective system which he favors, but how is it with the masses of the people? Is it well enough with them?

His claims of unprecedented prosperity, and that things are well enough are, as far as the masses of the people are concerned, frauds of the first water. It costs the wage earner to-day thirty per cent. more to live than it did four years ago. If his earnings were increased in proportion this wouldn't make any difference, and it would probably be a good thing, because it would put and keep more money in circulation. Or if the farmers reaped the benefit of the increased prices of the food stuffs consumed it wouldn't be so bad, for that money would pass through their hands into circulation, but it does not. There is little increase in the price of the products of the farm as they come from the farm, but when they pass into the hands of the combines which manipulate them before they reach the consumers then the price goes up, and the consumer has to pay it. It may be "well enough" with the combine, but it isn't well enough with the man who has to buy the necessaries of life from the combines. If the wage-earners improved in condition and reaped profit on their wages as the trusts do on their business it would be well enough, and the wage-earner might let it alone and desire it to continue.

Let us take a couple of the trusts by way of illustration. The Beef Trust, for instance, annually handles about $600,000,000 worth of meats, on which it makes a profit of about $100,000,000. The Steel Trust makes on its business a profit of $140,000,000 a year, about eleven per cent. on its alleged capital, including the inflated stocks. This makes $240,000,000 raked in by two trusts, most of which comes out of the American people, and working people. They both sell considerable abroad, but they say their profits are small on what they sell abroad, and consequently most of their profits come out of the American consumers.

These are but two out of 347 trusts, but they are the boss trusts, the kind that bring prosperity in big hunks to the country. It is well enough with them, but it isn't well enough with the people who are plundered to make the enormous profits for these two colossal trusts, not to speak of those of lesser proportions which are in the plundering game, all sheltered under the Dingley tariff. It will never be well enough until the people, who by their labor create the wealth, reap a fair proportion of the prosperity their labor makes.

A RADICAL LIE PUNCTURED.

The Republican leaders are trying to make the people believe that those persons who have not paid their poll tax for this year, cannot register and are disfranchised. Every white man who was entitled to vote before the constitutional amendment went into effect, and the son of any white man so entitled who has become of age since, can register, whether he has paid his poll tax or not. This puts him on the permanent list and he can vote every year hereafter, by complying with the poll tax provision, if subject to poll tax. The following from a letter of Senator Simmons to the chairmen of the ninety-seven Democratic county committees, explains the law bearing upon this:

"It will appear from an examination of the amendment and of the Election Law that the non-payment of poll-tax is not a disqualification for registration, but under both the amendment and the Election Law no one is entitled to vote unless he shall have paid his poll-tax on or before the first day of May of the present year, unless he has become of age since the first day of June, 1901, (the day for listing taxes for the previous year), or unless he was over fifty years of age on the first day of June, 1901, or has under the law been relieved from the payment of poll-tax by the county commission. In other words, when the elector offers himself for registration, it is not necessary that he shall exhibit his poll tax receipt or show that he has paid his poll tax for the previous year, but after he has registered and before he is allowed to cast his vote it is necessary that he shall exhibit to the Judges of Election his poll tax receipt, or show to the satisfaction of the Judges of Election that he has paid said tax. Unless he exhibits his receipt or shows that his poll tax has been paid he cannot vote. This applies to everybody except the persons mentioned above, to-wit: those who have been relieved by the commissioners of poll tax, or have become of age since June 1st, 1901, or had passed the poll tax age at that time.

There is nothing to prevent any white man from registering, and nothing to prevent the registered man, who under the old law had a right to vote from voting in elections after this year, provided he comply with the poll tax provisions, which is not hard to do for any one who desires to vote, or take any interest in public affairs. The law disfranchises no white man who could vote before the amendment went into effect, and these Republican deceivers know it.

It has ceased to be a question between the Pennsylvania mine operators and the striking miners, and has become one between the mine operators and the public, the consumers of coal. The operators have had their say and made their decision. Public sentiment is crystallizing and will be heard from.

THE BARONS DEFIANT.

In some respects the conference between the President and the managers of the anthracite Coal Trust, Friday, was a failure, for the coal barons were obdurate, and absolutely and arrogantly refused to heed the President's strongly phrased plea in behalf of the people, and absolutely and imperiously refused to yield one jot from the position they had taken, or to make any concession, or to treat with Mr. Mitchell, the President of the Miners' Union, in any manner whatever. Not only that, but taking advantage of their opportunity they lectured the President on what they held was his duty, and told him that instead of trying, as he was doing, to bring the strike to an end by peaceable means and appeals to sentiment, he should back them up with soldiers and powder and ball and treat those striking miners as "rebels."

If the State of Pennsylvania is powerless to protect us against these strikers, they exclaimed, it is your duty, on the call of the State, to send United States soldiers to protect us.

The State of Pennsylvania now has over 4,000 soldiers doing guard duty in the troubled region. Before federal troops could be sent the Legislature must be called in extra session, admission made that the State is unable to cope with the situation and a joint request by the Legislature and the Governor be made for U. S. troops, and by that time the supply of coal in the Northern cities would be utterly exhausted, which would mean great distress and suffering and death to many. What care the coal barons for that?

But it wasn't a failure altogether, for the uncompromising, arrogant and insolent reply of these haughty coal barons has done much to crystallize public sentiment against them and to emphasize the necessity of legislation to break the power of such combines and enable the State to protect the people from insolent, selfish greed and intolerable oppression.

DEFOE AND GOLDSMITH.

At the request of Col. Joseph M. Morehead, President of the Guilford Battle Ground Association, we publish the following interesting letter:

ROXBURY, MASS., Sept. 29, 1902.
Dear Colonel Morehead:

I am very much obliged to you for the pamphlets which you are kind enough to send me through our friend Mr. Benbow. I wish some of you North Carolina gentlemen would hunt up the descendants of Daniel Defoe, the author of Robinson Crusoe, who lived somewhere in North Carolina. I think that the great Englishman himself came over here. I think that accounts for his very accurate knowledge of affairs in the Southern States shown in Captain Jack.

There is another thing which ought to be looked for in some old store house in Wilmington. Oliver Goldsmith, the poet, meant to emigrate to North Carolina. He packed his trunk and put it on board the ship; the ship waited for the tide, and while it waited Goldsmith changed his mind and never came to America. But the trunk came and is somewhere in Wilmington, unless Lord Cornwallis stole Goldsmith's shirts and stockings. Some of our young people ought to make a novel out of this. It has a much larger foundation than most historical novels have.

With great respect, dear sir,
I am, truly yours,
EDW. E HALE.

CURRENT COMMENT

—— Nobody is surprised to hear that the Sugar and Standard Oil Trusts have their yards full of coal. The Trusts expend all the sympathies they have to spare from themselves on each other, and have none left for worker or consumer.—*Brooklyn Citizen, Dem.*

—— Senator Platt, of New York, is disturbed because the Republican party will be held responsible for the effect of the coal strike, and says that it is absurd that "people should always blame the party in power for every prevailing ill." The Senator, however, does not think it at all absurd that the party in power should claim credit for every prevailing good.—*Louisville Courier-Journal, Dem.*

—— The Germans in shouthwest Africa have made so much of a success with their cotton growing experiment, that they have increased the number of experts employed by drawing of the graduating classes of Tuskegee. Booker Washington has just sent out several additional foremen, who will take service under the German colonial government in Africa. The development of this enterprise is being watched closely by the whole world. It may have momentous results; but it's yet too early to admit of any valuable opinion on the subject being formulated.—*Chattanooga Times, Ind.*

—— Speaker Henderson must feel that he has sacrificed himself in vain in his attempt to check the growth of tariff revision sentiment in Iowa. Judge Birdsall, chosen to succeed the Speaker as the Republican candidate for Congress in the Third Iowa district, has just announced that he sympathizes entirely with the moderate and orthodox view on tariff legislation embodied in the last two Iowa platforms. How Speaker Henderson could have found any serious difficulty in subscribing to these views remains one of the unsolved mysteries of current politics.—*Washington Times, Rep.*

BRAIN FOOD.

Not long since there was a great run on the fish markets because it was announced that fish was food for the brain. Of course the fallacy of the fad was soon exploded. Normally the food we eat nourishes brain, nerves, muscle, bones, etc., each part of the body assimilating phosphorous salts, lime, according to its need. When the brain begins to show weakness or the nerves become sensitive it is a sign that there is a loss of the nutrition contained in the food eaten, and this loss is in general due to disease of the stomach, and its allied organs.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect digestion and assimilation of food, which is the source of the strength of both brain and body.

"I was troubled with very frequent headaches," writes Miss Belle Summerton, of San Diego, Duval Co., Texas, "often accompanied by severe vomiting; bowels were irregular and my stomach and liver seemed continually out of order. Often I could eat almost nothing, and sometimes absolutely nothing, for twenty-four hours at a time. I was entirely unfit for work, and my whole system seemed so run-down that I feared a severe sick spell and was very much discouraged. I was advised to try Dr. Pierce's Golden Medical Discovery and did so with such satisfactory results that before finishing the third bottle I felt perfectly able to undertake duties attending public school life."

Dr. Pierce's Common Sense Medical Adviser in paper covers is sent *free*, on receipt of 21 one-cent stamps to pay expense of mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

SPIRITS TURPENTINE.

— Whiteville *Press*: From the number of empty barrels for shipments seen at the depot, we conclude that this is a good region for the vineyard. The grapes are bought by a winery at Henderson, N. C. The shipment of grapes from this place this year will form a considerable industry for growers.

— Roanoke *News*: Government surveyors were at work here last week making surveys of Roanoke river, near the Weldon corn mills, with a view, it is said, of putting in a dam on this side of the stream to throw all the waters into one channel so that the sand bars can be washed out, and for the purpose of blasting the huge rocks which abound in the steam at that dangerous point.

— Wilson *Times*: Frank Bowling, eighteen years of age, was bitten by a copper headed snake last Saturday. He was found with the snake wrapped around his leg and had been bitten four times. He is expected to die. —— Mr. Daniel Lucas, of Black Creek township, is a unique character. He does not know a letter when he sees it in print and cannot say his letters forward, but can say them backward. He has some reputation as a preacher, and Wednesday afternoon surprised several sitting around the court house, who called on him for a sermon, by quoting passage after passage of scripture and commenting on same.

— Wadesboro *Messenger-Intelligencer*: Cotton is nearer all picked out and sold in this county than ever before at this time of the year. As illustrating this, the receipts here for September this year were 3,304 against 664 bales for the same month last year. Some 550 bales of new cotton were sold here in August, while there was practically no new cotton sold during August, 1901. —— Mr. T. R. Tomlinson has leased to Patterson Bros., of Atlanta, his buff sandstone quarry, on Gould's Fork, one-half mile from the railroad. This is a very fine quality of stone and it is the intention of the Messrs. Patterson to quarry it on a large scale. The stone will be shipped to Atlanta and Jacksonville, Fla.

— Lumberton *Robesonian*: Mr. N. A. Carter, of Raynham, has invented an apparatus for curing tobacco, which it is said will eliminate all the difficulties which have heretofore attended this most troublesome part of the preparation of the crop for market. If the invention will realize all that is hoped for it, it will be of incalculable value to tobacco planters, and will insure an immense fortune to the inventor. —— A son and grandson, boys of Preston Locklear, were shot near Alma Saturday night by two sons of Randall Smith, colored. One of the boys was shot through the body and the other was liberally sprinkled in the face with small shot. Randall Smith was also landed in jail, charged with being accessory to the shooting.

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogarty, of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50 cents. Sold by R. R. BELLAMY, druggist.

THEY ARE NOT LOST.

The look of sympathy, the gentle word,
Spoken so low that only angels heard;
The secret act of pure self-sacrifice,
Unseen by men, but marked by angels' eyes—
These are not lost.

The happy dreams that gladden all our youth,
When dreams had less of self and more of truth;
The childhood's faith, so tranquil and so sweet,
Which sat like Mary at the Master's feet—
These are not lost.

The kindly plan devised for others' good,
So seldom guessed, so little understood;
The quiet, steadfast love that strove to win
Some wanderer from the ways of sin—
These are not lost.

Not lost, O Lord; for in Thy city bright
Our eyes shall see the past by clearer light;
And things long hidden from our gaze below
Thou wilt reveal, and we shall surely know
These are not lost.

COTTON MARKETS.

By Telegraph to the Morning Star

NEW YORK, Oct. 27.—The cotton market opened steady, with prices one point higher to two points lower and for a short period was inclined to waver under realizing by the room longs and some bear pressure. However, as the weather South continued too cool and wet for the best interest of the crop, commission houses were abundantly supplied with buying orders and the whole list stiffened up towards the first half hour, January reaching 8 89 and May 8.71. Speculation was fairly active all the early session, with some disposed to lean towards the bull side on the theory that Europe would continue to absorb the bulk of the cotton as it reached the ports and that domestic spinners would support prices in interior southern spot markets. The private crop reports from the belt were mixed, some reporting improvement, but the great majority telling of short crop prospects and continued deterioration owing to prolongation of the wet spell and period of cool nights. Receipts were again liberal but were ignored, the trade giving attention chiefly to crop and weather reports. The Liverpool cables were a trifle better than anticipated and were accompanied by many buying orders.

NEW YORK, Oct. 4—Cotton dull at 8 11-16c; net receipts — bales; gross receipts 5,381 bales; stock 41,982 bales

TENTH ANNIVERSARY.

This month the ATLANTIC NATIONAL BANK celebrates its tenth anniversary. During all these years its record has been one of unbroken success.

To-day its assets, $1,750,000, tower above those of any other bank in North Carolina.

To-day its deposits of $1,375,000 largely exceed those of any North Carolina bank without exception.

It has paid to its stockholders in dividends the enormous amount of $145,000, exceeding its capital by $20,000. In addition to this, there remains a surplus of $155,000. Never before has it been so well prepared to meet and satisfy the needs of its patrons as NOW. The management begs to thank the public most heartily for its generous patronage. oc 1 tf

ROADS IN MISSOURI.

SOME OF THE SPLENDID HIGHWAYS IN THAT STATE.

How the Pike County Gravel Roads Were Built and Are Now Maintained—Benefits the Farmers Derive From Them.

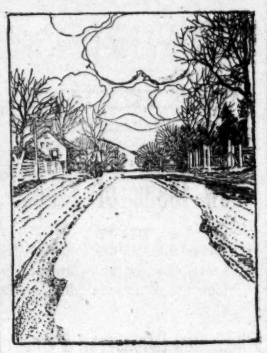
The pioneer good roads builders of the west were the sturdy farmers of the southeastern part of Pike county, Mo., who in the early fifties began the agitation for highway improvement which crystallized in May, 1857, in the organization of a company to construct a gravel road from the city of Clarksville to the village of Paynesville, a distance of ten miles.

The road, probably the first gravel road ever built west of the Mississippi river, was completed in 1860 and is a fine piece of good roads engineering. It is doubtful if its equal can be found in the entire country, says a writer in The Good Roads Magazine. It was the nucleus of a general system of highway improvement in Pike county, which now owns and maintains more than fifty miles of splendid gravel and macadam roads.

Calumet township alone has more than thirty miles of gravel road, whose fame is country wide. The belt road, which has its beginning and end in Clarksville, is twenty-one miles long and forms a loop into the rich agricultural region in the rear of the town, making communication between city and country easy and delightful.

That good roads building pays is attested by the fact that Calumet township boasts of being the richest agricultural township in the world, its wealth being greater than the sum that Thomas Jefferson paid for the entire Louisiana purchase—$15,000,000. Millionaires, seeking an ideal retreat for a country home, have erected magnificent mansions along this highway, and wealthy farmers live in easy comfort within a stone's throw of the famous road, their chief recreation being daily drives in handsome rubber tired carriages over its smooth gravel surface.

The Clarksville and Paynesville road was originally built by a corporation known as the Clarksville, Prairieville and Paynesville Road company. The projectors of the road operated upon the broad principle that the public should be the beneficiary of highway improvement, and it is a matter of pride to the people of the county that not one dollar of dividends was ever paid by any Pike county road company to its stockholders. The roads were not



A ROAD IN MISSOURI.

built to grind out dividends. They were built for the people, for the community's good. They have always been operated as toll roads, those who use them willingly paying the small fee exacted for the privilege.

The county encouraged the early good roads builders by offering to become an equal shareholder with the people. The municipality of Clarksville subscribed for $4,000 worth of stock, and the farmers living along the surveyed route helped the movement by contributing the right of way.

The uniform width of the roads is thirty feet. In their construction a grade twenty feet wide was thrown up on the route of the survey. Some portions of the roads cross many hills and valleys, making considerable grading necessary in places. Upon the graded bed a stratum of gravel twelve inches deep was originally laid. The road was then ready for use, and a few months of traffic packed the gravel so solidly that it became as smooth as a floor.

Among the later benefits derived by the community from the splendid road system is the establishment of a rural free delivery mail route by the government. The carriers leave Clarksville at 8 o'clock each morning and by noon have completed the circuit of the township, delivering the day's mail to nearly every farmhouse.

No tax is levied upon the people for the maintenance of the roads. They are sustained wholly by the revenue derived from the tolls. While the old turnpike road, dotted here and there with its tollhouses, is regarded in some parts of the country as a relic of years agone, yet the system is so entirely satisfactory and the results are so patent that there seems to be no inclination on the part of those most interested to discontinue the toll system. It is argued and very logically that the county could not legally levy a tax upon all the people of the county for the maintenance of a road system peculiar to any particular community. The expense of keeping the roads in repair is not nearly equal, mile for mile, to that required to keep dirt roads in even passable condition.

Theory and Practice.

Professor Leroy Anderson, instructor in dairy husbandry at Berkeley university, California, spent about ten days, Jan. 1 to 10, about Los Angeles, remaining at dairies and creameries giving practical instruction in this great and growing work. Professor Anderson is very popular with dairymen of this section, and his services are much sought after. There is a state appropriation for carrying on this work.

One of the weak points in connection with station work is the tendency for the experimenters to become theoretical dairymen rather than practical workers, says Hoard's Dairyman. It is easy to consider dairy subjects from the standpoint of the test tube and a clean milk supply, and the results worked out from such conditions frequently fall when applied to actual dairy conditions. A getting out of the workers, as in the above case of Professor Anderson, would add much to the value of the station work.

Sells Butter and Eats Oleo.

Denmark sells its butter and eats oleomargarine. A government statement says the sixteen factories making oleomargarine turned out last year 40,774,000 pounds, an increase of nearly 5,000,000 over the previous year. The import was not quite 5,000,000 pounds. The output of these factories is mainly consumed in Denmark, the per capita being about eighteen and a half pounds, an increase of five and a half pounds in ten years.

We do not think that those who have had most experience with silage consider sweet corn materially better than any other variety of corn, says Hoard's Dairyman in answer to an inquiry. They think the most important consideration is to plant that kind of corn which will certainly mature and, one year with another, yield the largest amount of forage. It is claimed that sweet corn is a little more disposed to make an acid silage than are other varieties, but this acidity is not a very serious objection. All silage is more or less sour. The principal distinction between what is known as sweet silage and that which is known as sour silage is in their respective feeding values. Unripe corn makes a so called sour silage, and at the same time unripe corn contains less nutriment than mature corn. When silage is especially sour, we conclude that it is made from immature corn and therefore carries less nutriment than the same amount of silage made from corn more mature. It is now the universal opinion that the best silage from flint varieties of corn is made when the ears are fairly well glazed and from the dent varieties of corn when the kernels are pretty well dented, the lower leaves of the stalk commencing to turn and some of the husks of the more mature ears getting approximately dry and hard.

Silage Butter Satisfactory.

The silage butter question will never be settled, as some claim it is tainted no matter what precaution is exercised in its production. H. B. Gurler states that he has had silage butter tested for weeks at a time by experts, who were unable to tell whether it came from silage fed cows or not. He thinks the trouble comes in exposing milk in open vessels near fresh silage. This is about the only way silage will injure milk or butter.

That Cornstalk Disease.

Wide is the discussion and much is the study concerning the cornstalk disease; still no one has found a cure, although many experiments have been made. No one really seems to know the cause of the disease, writes B. E. Synder in Prairie Farmer. Some think it is caused by a too sudden change from green pasture to the coarse dry feed which forms a compaction in the stomach or intestines or causes indigestion. Others claim that it is due to smut or blight, and still others, good authority on the subject, assert that it is not contagious. I was told not long since by a man who had made an examination of some cattle that he had lost that he had found on the second lining of the stomach a black coating resembling smut. Some will turn their stock out in the fall. Do not make too sudden a change from grass to stalks and keep plenty of salt on hand. I have noticed that the man who is fortunate enough to have a meadow near his stalkfield or feeds other green feed in connection with the stalks until the cattle are used to the dry feed seldom loses any form from this disease.

SUNDAY MORNING. OCTOBER 5.

DUPLIN CITIZENS' CONVENTION

The "Citizens" Are Fusionists Only--They Put Out a Populist Ticket—Democratic Canvass Begins.

[*Special Star Correspondence.*]

KENANSVILLE, N. C., Oct. 4.—The much advertised "Citizens' Mass Meeting" convened here yesterday for the purpose of putting out a county and legislative ticket in opposition to the Democrats. There were about seventy-five present, all told, after the entire county had been drummed for a large attendance. It turned out that the convention was composed of fusionists entirely, and not a Democrat could be induced to go on the ticket. The ticket nominated is as follows:

For Clerk, Jno. A. Gavin; for Register of Deeds, John King; for Sheriff, Dan Moore; for Surveyor, D. T. McMillan; for Coroner, J. F. Maxwell; for Commissioners, D. H. Garner, John Swinson and L. M. Cooper; for House, J. T. Wilkins. The question of recommending a Senator was left to a committee and Geo. E. Butler was endorsed for Congress. J. B. Oliver was made chairman of the convention.

The entire ticket is made up of the same old Populist crowd who were beaten in 1898, and they will be defeated again in November. Every effort was made to induce Democrats to join the movement, but not one could be brought in. It is evident that they think the word "Citizen" is more respectable than the title "Fusionist" under which they masqueraded in 1898 and 1900, and doubtless this is true; but the real "citizens" were elsewhere working for the Democratic ticket and did not show up in the convention.

The Democratic county canvass opened yesterday at Butler's Store, in Rockfish township, where strong speeches were made to a large crowd by D. L. Carlton and H. D. Williams. Rockfish is a strong Populist township and every indication was unusually favorable to the Democrats.

PENDER COUNTY POLITICS.

Primary of Rocky Point Township Held Yesterday—Rotation in Office.

[*Special Star Correspondence.*]

ROCKY POINT, N. C., Oct. 4.—The primary of Rocky Point township was held at 3 P. M. to-day and was called to order by Dr. E. Porter, chairman. On motion Mr. E. D. Pearsall was elected secretary. The following delegates and alternates were unanimously elected to the convention to be held at Burgaw, Oct. 11th, viz: A. M. Bowden, R. A. Corbett, E. Porter, W. A Brown, E. McLendon, Henry Batson, Thos. E. Hays, R. S. Futch. Mr. J. B. Black was endorsed for register of deeds; Mr. Tom Brown for sheriff and Mr. E. D. Pearsall for clerk of the superior court.

Resolutions were adopted declaring that the public good is promoted and parity unity secured by rotation in office; therefore no man nor set of men can have a prerogative to the offices of a county without harm to the party and danger to the best interest of the people; that it was the sense of the meeting that the proper and only effective remedy against the prevailing interest of independentism is the timely recognition of the county talent by proper rotation in office and that the meeting assembled pledge itself to stand by the platform and principles of the Democratic party and use all proper means to secure its success.

NOVELTY IN STREET PARADE.

Something New That Will Be Seen When Forepaugh & Sells Comes.

It is said that the Adam Forepaugh and Sells Brothers Consolidated Shows have at last discovered a novelty for their street parade, something that all managers are in search of and the public will be glad to see. This novelty comprises a series of allegorical representations of the battles of our nation, by the presence in the parade of a troop of soldiers, correctly mounted and uniformed, from all the great American armies from the Revolutionary War down to the war with China, which culminated with the fall of the walls of Pekin. Every costume and flag is absolutely accurate in design and material and the accoutrements of the horses are of the same degree of genuine reproduction. These allegories are added to the already stupendous parade given by these shows, and the new things in the parade are greatly augmented by a large number of entirely new cages, chariots, tableau cars, cavalcades, etc. It is said to be by all odds the most pretentious street pageantry ever seen upon American streets, and will be seen when the great Forepaugh-Sells Brothers' consolidation exhibits here on Monday, Oct. 20th.

MR. E. K. PROCTOR DEAD.

Well Known Lawyer and Prominent Robesonian Passed Away at Lumberton.

LUMBERTON, N. C., October 3.—E. K. Proctor, Jr., Esq., died at his residence here this afternoon at 2 o'clock. He was in the prime of life and one of our best known and most respected citizens. He was a member of the boards of trustees and deacons of Lumberton Baptist Church, clerk of the Robeson Association, one of the trustees of Wake Forest College, the life of Robeson Institute, and it can be truly said of him that no man did more for Robeson county than he. As a lawyer he was without a superior, fearless in discharging what he conceived to be his duty. He leaves an aged father and wife, eight children, one sister and a host of friends to mourn his loss.

AMERICAN FEDERATION OF LABOR.

Tinners, Painters and Federal Unions Organized Last Night by Mr. Belk

A meeting of a number of laboring men, representing many classes, was addressed last night in Fifth Ward Hook and Ladder Hall by Mr. M. S. Belk, of Charlotte, general organizer of the American Federation of Labor. Mr. Walter P. Gafford presided and Mr. E. V. Richards was secretary.

Mr. Belk spoke for an hour and ten minutes, presenting the cause of unionism and declaring his policy as opposed to strikes but in favor of conciliation first; arbitration next. He asked those interested in forming unions to come up after his remarks and be organized. A Tinners' Union, Painters' Union and Federal Labor Union were organized. The latter is made up of all trades and is intended for a feeder to other unions. As fast as a sufficient number of any one class become members of the Federal union to form a separate union, then a separate organization is effected.

A meeting of printers is called for this afternoon at 3 o'clock for the purpose of forming a typographical union.

The election and installation of officers of the unions will take place Monday night.

Mr. Belk, the general organizer, is editor and business manager of *The Industrial Journal*, a paper published at Charlotte and devoted to the labor interests.

MORE COAST LINE RUMORS.

Slate in New York for Officials of Still Greater A. C. L.

Speaking of the absorption of the L. & N. by the Atlantic Coast Line, the Savannah *News* of yesterday says:

A gentleman interested in the railroad business and just back from New York states that according to the accepted slate, as reported in New York, some of the changes will be as follows:

Milton Smith, now president of the Louisville and Nashville, will be president of the combined properties; J. R. Kenly, now general manager of the Atlantic Coast Line, will be general manager of the combination; Capt. W. B. Denham, general superintendent of the second division of the Atlantic Coast Line, will be general superintendent of both first and second divisions, and F. H. Fechtig will be purchasing agent. R. E. Smith, it is also stated, will be assistant general manager.

From the same source comes the rumor that Wilmington will be made headquarters for the entire system. The more credence is given this part of the rumor from the fact that the Atlantic Coast Line is at present enlarging its office buildings in Wilmington.

CHINAMAN'S QUEER CAPER.

Chicago Laundryman Committed Suicide by Starvation--A Secret Society Had Commanded Him to Die.

By Telegraph to the Morning Star.

CHICAGO, Oct 4.—A Chinaman died at the Provident Hospital to-day, a suicide by starvation, because, it is declared, a secret society had commanded him to die. The man was Wong Now, proprietor of a laundry. The coroner is investigating the case. For two months he refused to eat and gradually grew weaker until his case was hopeless. Two months ago found Now in his laundry ill. At the command of some mysterious secret band, Now afterwards declared, he had eaten potash. It did not kill him, however, and the physicians said he would live. After two days Now still refused to eat and Dr. H. O. Jones was called to attend him. Dr. Jones, who speaks Chinese, managed to learn the man's history and cause of his self-inflicted starvation. Now's friends were notified to-day that he was dying and forty of them went to the hospital. For two hours they chanted a death song, then arrayed him in a black cap and gown. Thus arrayed he died. Shun Fack, Now's uncle, notified the authorities that he would bury the man. None of the fellow countrymen would discuss the case.

PREVENTION OF COAL FAMINE.

Illinois Citizens Petition the President to Call an Extra Session of Congress

By Telegraph to the Morning Star.

CHICAGO, October 4.—Six thousand Illinois citizens, during the last twenty-four hours, have signed a petition asking President Roosevelt to call an extra session of Congress to enact some measure for the prevention of a coal famine. One method suggested in the petition is a provision for the appointment of a temporary receiver to operate the Pennsylvania mines, which are closed on account of the strike. The petition is being circulated all over the city of Chicago and throughout the State of Illinois under the direction of Senator William E. Mason.

"There are numerous instances where temporary receivers have been appointed for the management of public utilities," said Senator Mason, "and which afford ample precedent for such an action in the present emergency."

Messrs. J. H. Rehder & Co. extend a cordial invitation to the public to attend their Opening this week. †

FINAL EFFORT TO END THE STRIKE.

Determined Upon by President Roosevelt and Some of His Advisers.

TO AVERT A FUEL FAMINE.

Miners to Be Induced to Return to Work With Promise That Complete Investigation of Situation Shall Be Made by Congress.

By Telegraph to the Morning Star

WASHINGTON, Oct. 4.—A final effort, with hope of success, is to be made to end the coal strike. It has been discussed by the President and some of his advisers to-day and while the idea is still in an uncompleted state and the final result still uncertain, yet it offers a method which now seems to be the only solution of the problem.

The suggestion is made that President Mitchell of the United Mine Workers may be able to have the men now on strike return to work in order to avert the impending disaster which a fuel famine will cause, and that at an early date as possible there shall be a complete investigation by the National legislature, and by the State legislature of Pennsylvania, into the anthracite coal situation with a view of bringing before the public the facts and condition of the miners, with a view to legislation or recommendation for relieving the condition of the miners in the near future. While it is not absolutely possible to guarantee such an investigation, there is little doubt that recommendations by the President and the executive of Pennsylvania would be promptly acted upon by Congress and the Pennsylvania legislature.

Will Mitchell Agree?

Just how President Mitchell will view this suggestion cannot be stated, but it is known that he and others fully realized that after the statements by the presidents of the coal roads yesterday there is little hope of securing any adjustment with the operators by which the people of the country may be supplied with coal. It is expected that President Mitchell will confer with his associates and if they can determine that the mine workers may be fully as much benefitted by the course suggested as by continuing the strike and causing the widespread suffering which is sure to follow a dead-lock, it is expected that negotiations will be opened with a view to carrying out the new proposition. Much will depend upon the way the miners view the proposition and whether they think it will cause a loss of prestige to the union from which it cannot recover.

No Extra Session of Congress.

There will be no call for an extra session of Congress to deal with the coal strike situation at this stage. The President stated in his appeal to the operators and representatives of the miners yesterday that he did not act officially in calling them together. He has for the time being exhausted his individual resources. In his view, the matter is one with which the State of Pennsylvania should deal. If the commonwealth finds itself unable to control the situation and appeals to him through the constitutional channels, the President will be ready to bring into play the great forces of the national government, military and civil. But for the time being, the President has relaxed his efforts.

A great many radical suggestions have been made as the result of the failure of the conference yesterday, and they include everything from taking possession of the mines by the government to the sending of United States troops to Pennsylvania without regard to any call from the Governor of that State. It can be positively stated that none of these suggestions has received any serious consideration by the administration.

Not Approved by Strikers.

WILKESBARRE, PA., October 4.—President Mitchell was shown the Associated Press dispatch from Washington to the effect that it has been suggested that the miners return to work and that Congress and the Pennsylvania Legislature investigate the conditions prevailing in the hard coal field, with the view of recommending remedial legislation, but he declined to discuss the new proposition in any way. While he did not indicate what he thought of the proposed methods for ending the strike, it is believed he has his mind made up on that point but would rather have the proposition placed before him in some official way. It is the general opinion about strike headquarters that the proposition in its present form would not be entertained by a convention of the miners. The strikers have all along argued that they want some definite concession and no promises.

There was rumor here to night that the operators on Monday would post notices at all collieries requesting the men now on strike to return to work. Mr. Mitchell's attention was called to this and his only reply was that the operators have been making every effort since the strike started to get the men to return to the mines, but have failed.

THE COAL OPERATORS.

Will Make Determined Effort This Week to Start Additional Collieries.

By Telegraph to the Morning Star.

WILKESBARRE, PA., Oct. 4.—It is said that the coal operators of the Wyoming region will make a more determined effort than ever next week to start up additional collieries. They claim they can get the men if the military authorities will protect them and their families. Vice President Rescavage, of District No. 1, United Mine Workers, says the coal companies are now sending into the region large numbers of Poles, Slavs and Italians. Some of them he says are fresh arrivals from Europe.

The houses of several non-union men in Plains were bombarded with stones to-night. Colonel Dougherty of the Ninth regiment says outside of the reported disturbance at Plains all is quiet to-night.

PERSHING'S CAMPAIGN AGAINST THE MOROS.

Killed or Wounded a Hundred of Them and Destroyed Forty Forts—Only Two Americans Wounded.

By Cable to the Morning Star.

MANILA, Oct 4.—Captain John L. Pershing's column has completely routed the Maciu Moros in the island of Mindanao, killing or wounding a hundred of them and capturing and destroying forty forts. Two Americans were wounded.

On Tuesday the Moros retired to their largest and strongest fort on the lake shore, and Wednesday Captain Pershing attacked them with artillery, bombarding the enemy for three hours. At noon Lieutenant Loring, leading a squad of men, attempted to set fire to the fort. He crept under the walls and started a blaze, but the Moros discovered him and forced the Americans to retreat.

During the afternoon the Sultan of Cabugatan led a sortie at the head of a band of fanatics armed with krisses. They crept through the grass and sprang up and attacked the Americans. The Sultan was wounded six times and boloed an American before he died. His followers were killed.

In the darkness Wednesday night Captain Pershing took his batteries within a hundred yards of the fort, closed in his infantry lines and resumed the attack. The Moros broke through twice and attempted to escape by the beach but were discovered and many of them were killed.

The Moros abandoned the fort early on Thursday, after fifteen hours bombardment, and Thursday Captain Pershing destroyed the rest of the forts and returned to Camp Vicara.

It is believed the moral effect of the defeat of the Moros will be great Gen. Davis has ordered that hostilities be stayed in order to permit the Sultan of Bacolod and other hostile Sultans to make peace.

The Sultans of Maciu were confident of their ability to defeat the Americans and vowed before the fight to enter slavery voluntarily if they themselves were defeated.

General Davis has sent General Sumner, in command of the American forces in Mindanao, a congratulatory telegram on the success of Capt. Pershing and the small American loss.

THE SOFT COAL OUTPUT.

Norfolk and Western Railroad Will Run Coal Trains on Sundays During the Existing Coal Famine.

By Telegraph to the Morning Star.

ROANOKE, Va., Oct. 4.—The following official statement was given out at the general offices of the Norfolk and Western Railway to-day:

"Instructions have been issued to run coal trains on Sunday through the State of Virginia and elsewhere in order to expedite shipments of coal for the relief of communities and interests suffering and imperiled for the want of fuel, and these coal trains will continue to run on Sunday during the existing coal famine."

General Manager L. E. Johnson, of the Norfolk and Western, was seen in reference to the above and stated that this movement was necessary on account of the unusual demand for coal. The laws of the State prohibit the running of freight trains on Sunday, but under the circumstances, it is thought the action of the railroad will not be construed into a violation of the law.

The daily output of coal in the Flat Top and Pocahontas fields along the lines of the Norfolk and Western is at present six hundred cars, or about 34,000 tons per day. The full output of these mines is 900 cars daily, but the tracks are so badly congested now that it is not possible to move more than 600 cars. With the Sunday movement, the Norfolk and Western expects to be able to send to market 900 cars or 36,000 tons of coal daily.

HOMICIDES REPORTED.

One at Shreveport, La., and the Other at Anadarke, Ark.

By Telegraph to the Morning Star.

SHREVEPORT, LA., Oct. 5.—While threatening to murder his own wife, Samuel Long, a carpenter, was killed here to-day by his wife's brother, F. M. Fuller. Long had sent word to his wife that he intended to kill her. When he arrived at her home he was met by Fuller, who shot and instantly killed him. Fuller surrendered and was released on bail.

ANADARKE, ARK., Oct. 4.—Samuel Robinson to-day shot and killed Smith Brown. Both were prominent business men, supposedly close friends and the shooting caused a sensation. Robinson when arrested refused to reveal the cause of the shooting.

STRIKE RIOT AT GLEN FALLS.

A Company of Militia Called Out to Suppress the Mob.

By Telegraph to the Morning Star.

GLEN FALLS, N. Y., October 4.—A mob of fully 5,000 sympathizers of the Hudson Valley railway strikers paraded the streets here to-night, stopping all cars as they came through and storming the cars, breaking windows and cutting trolley wires. So great did the disturbance become that Sheriff Gill ordered out Company K, of the National Guard, stationed here, to disperse the mob. When the rioters began their work the majority of the non-union employes of the company gave themselves into the hands of the police for protection; but some deserted to the strikers. Four cars were stalled on the switch and all the windows in them were broken.

PRESIDENT'S CONDITION.

The Conference With the Mine Operators Was a Severe Strain Upon Him.

By Telegraph to the Morning Star.

WASHINGTON, Oct. 4.—Secretary Cortelyou this evening upon being asked as to the condition of the President said:

"The conference held yesterday was a severe strain upon the President. While in the judgment of his physicians, his progress toward recovery has been satisfactory and continues so, they feel that to avoid the risk of a setback he should be relieved of any undue tax upon his strength. Therefore, for the next week or ten days, only such matters will be brought to his attention as it may be imperatively necessary for him to consider."

THE MANY HUNDREDS

OF LADIES THAT HAVE VISITED OUR FALL OPENING THIS WEEK COMPLIMENTED OUR DISPLAY OF

Pattern Hats and Fine Millinery Very Much.

The decorations of our store throughout were pronounced by many to be very fine—everything was harmonious.

Our dress goods department had on display the grandest line of dress goods that we have been able to show and even though the weather has been very warm our sales have been unusually good.

In our millinery department our sales even surprised us. Our milliners took orders for hundreds of pretty hats which we have been working hard to try and get them ready on time. Our stock of men and boys' clothing has had their full share of patronage and we are claiming to have the best stock of clothing in the city. We have hundreds of boys' suits that run in price from $1 to $4 that I know are new and nobby and strictly up to-date; in men's suits, from $5 to $12.50, we defy competition; we claim to have the strongest line sold in North Carolina.

If you are thinking of buying a suit for yourself or for your boys and saving money is any object, it will pay you to give us a look.

Men's strictly all-wool cheviot suits, worth $7.50, can be found in our store for $5.

For $7.50 and $10 you can get the very best suit. Every thing in this line is strictly all new goods.

In ladies' cloaks and furs and shirt waists we have an elegant line and assortment in all styles; nice cloaks from $2.50 to $12.50; fur collarettes from 75c to $9 each; shirt waists, beautifully made, at 50c; nice silk waists at $2.98; ladies' ready-made skirts, we have them at all prices, $1 to $2.50; beautiful walking skirts $2.50 and up; ladies' underskirts, nicely made and full size, black, looks like silk, from 75c, $1 and $1.50; ladies' muslin underwear in all prices; corset covers at 10c, better at 15c, 20 and 25c; full size gown, with ruffle and embroidery, at 48c; better at 75c, $1 and $1.25; waist chemisettes, beautifully made and trimmed, at $1.25; white skirts 50c, 75c and $1; ladies' strapped bust corsets at 23c each; an elegant corset at 39c each; beautiful girdles at 50c each; fascinators, circular shawls, 23c to $2.50.

For Oil Stove—we have just recured the agency for the best—we sell the Perfection smokeless, odorless oil heaters, maximum heat at minimum cost, safe and reliable, at $5 and $5.50.

We also sell the Alladin Lamp, which we claim to be the best sold in the city, at $1.50 each. In our crockery department we have very much increased. We sell fine gold band China cups, saucers and plates for $2.25 per set of 18 pieces.

Best large bowls and pitchers at 90c per set. Ten piece toilet bed room set handsomely decorated, for $2.50. Full size perfect cups and saucers, six in set, for 45c per set.

Best goblets at 30c per set; nice tumblers at 19c per set; meat platters 10c and up.

Candy—we have added to our stock a full assortment of fine candies, good candy as low as 8c per pound; pure cream chocolates at 15c per pound.

Fine almond and walnut chocolates at 25c. Everything in this line is kept fresh by getting in a new supply each week.

We wish to thank the ladies for their large attendance at our opening, and would like to say that we are never undersold by any one.

Our millinery department is at your service, at prices our competitors can't touch. Miss Brown with her able force of assistants will trim your hats free when you buy hat and material from us.

A NOVELTY.....

In order to determine the comparative values of our daily papers as a medium for advertising, and to have the people see the Finest line of Furniture ever shown in North Carolina, and as fine as they can find in New York City, I will, during the month of October have in my store a box in which any visitor, whether a buyer or not, may place a slip on which they will write name and address and name of paper in which they saw this notice, and on the 1st of November the box will be well shaken and one slip drawn from same. The party whose name is on the slip will receive as a souvenir of this ad the Handsome Gold Musical Chair, which has attracted so much atten. Non-residents may mail their slips, which will be placed in box, but residents of city must visit the store in person.
